

Thanks for your interest in my services. Please review the following overview agreement, which outlines the way I work with my clients for “whole novel” developmental edits.

By developmental I mean: attention to structure, voice, character development, plot development and tone.

I will often point out word repetition and grammar issues, though my services are not those of a copy editor or line editor.

FOR CLIENTS WITH A COMPLETE MANUSCRIPT DRAFT

1. For word count up to 60K I charge \$800 for a thorough read/notes/comments on manuscript.
2. For word count from 60K to 75K I charge \$850 for a thorough read/notes/comments on manuscript.
3. For word count from 75K to 90K I charge \$900 for a thorough read/notes/comments on manuscript.
4. For word count from 90K to 105K I charge \$1000 for a thorough read/notes/comments on manuscript.
5. I'm likely not the best editor for work over 105K words.

When you query, please include a brief synopsis of your work, and indication of draft stage. I generally book 6 weeks ahead. Once we agree to work together, and you have reserved your time slot, I will invoice you via PayPal for half up front. The remaining half to be paid upon receipt of your edits.

Thanks again! Looking forward to working with you.
